Chief Bakker presented the following memo to the Board of Trustees regarding Traffic control concerns.

Several traffic issues have been brought to my attention and my findings are as such

- 1) A Lisa Drive resident has requested a stop sign be placed on Blydenburgh Court at the intersection with Lisa Drive. The resident felt it was unsafe and that she personally had close calls in regards to traffic collisions. Undersigned did review all crash reports since 2000 and there have been no motor vehicle crashes of any type reported. The department does not have any reports of complaints regarding the corner either from Blydenburgh or Lisa Drive residents (aside from the immediate concern). The visibility from the corner of Blydenburgh Court eastbound on Lisa Drive is 206 feet due to the curvature of the roadway. My review of what is the minimal intersection sight distance for a roadway with a 25mph speed limit is 155 feet. A stop sign on Blydenburgh Court at the intersection with Lisa Drive does not appear necessary, especially without the input of Blydenburgh Court residents. If the board did decide to erect a stop sign at the location, I think it would have minimal impact either way.
- 2) A Lewis Road resident did request a stop sign on Lewis Road at Summit Avenue due to his feeling that people were speeding on the roadway. A review of crash reports on Lewis since 2000 revealed one crash in 2012 (1/28/12) where speed was a factor and no collisions where there was a failure to yield the right of way. Patrol check of speeds on Lewis Road did not appear to indicate a speeding problem (average speed was in the twenties). This of course does not mean that

no vehicle exceeds the speed limit, but rather that there is not a consistent pattern. Federal and New York state traffic guidelines stipulate that a stop sign is not to be used to regulate speed. I believe that a stop sign is not appropriate for the situation and will have officers monitor/enforce speed on the roadway.

- 3) A Burt Avenue resident did request a "No parking here to corner" sign on the east side of Burt to mirror the same sign on the west side. A review of crash reports since 2000 reveals no crashes at the location at all. The installation of that sign would seem to deprive residents of parking while offering little benefit. The sign on the west side appears to have been placed there to stop vehicles from parking at the stop sign, which is regulated by the New York State Vehicle and Traffic Law. I do not believe another sign at this location is necessary.
