Representing Crown Castle Robert Gaudioso, Paul Costa, Brenden Clerkin and Jaskamal Randhawa, virtually appeared before the board to seek board approval to install seven small cell wireless Antennas within the Village's right of way. Six wireless antennas are to be installed on existing wooden utility poles and one on a new wooden utility pole. The proposed nodes would serve as a gap filler for 4G service in the area. When testimony was complete all were given the opportunity to speak for or against the application. Several residences spoke to express their concerns with the proposed wireless Antennas to be installed. Applicant agreed to go back and reevaluate the proposed utility pole at 52 Burt Avenue and will let resident Jack Neber know when they are on site. A deliberation meeting of the board was scheduled for Wednesday October 7, 2020 at 4:00 p.m.
