

# An update for our neighbors in Northport

We're modernizing the natural gas system to provide better service to the community.

In the coming weeks, National Grid contractor crews will be replacing the gas main on Main Street from Woodbine Avenue to Church Street. This project will provide a modernized natural gas system that is safer, cleaner and more resilient. The new distribution pipelines will serve the growing demand for gas and improve reliability.

We anticipate the duration of the project to run from January to May 2023.

Any service interruptions will be scheduled and of short duration. This project is being coordinated with the Village of Northport.

## What you may expect during construction:

- All businesses will remain open during construction.
- Crews\* generally work between the hours of 7 a.m. and 3 p.m.
- This will be a moving project impacting sections of Main Street.
- There will be no road closures. However, motorists can expect lane shifts, merging traffic and delays.
- Driveways and entrances will remain open.
- Restoration will be completed at the end of the project.

The safety of the public and our crews is our first priority. Please use caution in construction zones, and pay attention to traffic cones, cone bars and barricades.

National Grid appreciates your understanding while we work to provide safe and reliable service to your community as we are committed to making sure the road is fully restored.

**Thank you for your patience.**

## Smell Gas. Act Fast.

MOVE your family and pets to a safe area outside and call **911** or alert National Grid's gas emergency contact number **1-800-490-0045** on Long Island and the Rockaway Peninsula. Never assume someone else will call.

Please contact National Grid if you have any questions/concerns regarding the project.

**Phone: 631-206-7433**
